# INSTALLATION INSTRUCTIONS

- Log into StreamElements.
- In the left menu go to ‘Overlays’.
- Click ‘New Overlay’ on the top right.
- On 1080p Resolution prompt click ‘Start’.

Quick Upload with Widget.io extension:

- Click the pink < > button > Select .zip > Create Widget
- OR Manual File Upload method:
- Add Widget > Static / Custom > Custom Widget.
  - Under Settings > Open Editor.
  - Paste the contents of each of the files from the Google Drive folder into the corresponding tab in the code editor popup - the name of the file matches the name of the tab. Click ‘Done’ when all files pasted.
  - Color, text, sizing, and other customization settings can be found under Settings in the left menu after including code.
  - Click ‘Save’ in the top right when the widget has the settings you want.
  - Click the link icon next to the save button to copy the overlay link that you will import into OBS.
  - In OBS add new source > Browser.
  - Paste the overlay link in the URL field.
  - You can get the widget dimensions under ‘Position, size and style’ (outside and underneath of Settings)
  - Adjust size and move around as needed you’re all set!

## TIPS

- A gradient ring is created by setting the starting and end background colors to two different colors.
- For solid colors set start and end colors for the underlay or bar to the same color.
